

## Christopher D. Barnet

Christopher D. Barnet received degrees in electronics technology (1976) and solid state physics (1978) from Northern Illinois University, DeKalb. In 1990 he received his Ph.D. degree from New Mexico State University, Las Cruces in remote sensing of planetary atmospheres using visible and infrared instruments aboard the Voyager spacecraft. His postdoctoral research at NASA and the Canadian Institute for Space and Terrestrial Science focused on ultraviolet, visible, and near-infrared observations of the planets using the Hubble Space Telescope. Since 1995 he has worked on advanced algorithms for terrestrial infrared and microwave remote sensing and has actively supported NASA's Advanced Infrared Sounder (AIRS) science team and the NPOESS Sounder Operational Algorithm Team (SOAT). In June 2003 he joined the Office of Research and Applications (ORA) of NOAA/NESDIS where he is exploiting operational sounder missions to provide the first global understanding of carbon monoxide, carbon dioxide, and methane in the free troposphere. These measurements, will contribute to the understanding of the terrestrial carbon cycle and climate change.

### Professional Activities:

Teaching UMBC PHYS 741, Remote Sounding	Spring 2004
Teaching UMBC PHYS 440/640 Computation Physics	Spring 2002 & 2001
Active participation with the Integrated Carbon Observing System	2004-present
AIRS Science Team participation (member since 2004)	1995-present
Active participation with the Integrated Programs Office (IPO) Sounder	
Operational Algorithm Team (SOAT)	1997-present

### Experience

2003-present	Physical Scientist, National Oceanographic and Atmospheric Administration
2001-2003	Associate Research Faculty, University of Maryland Baltimore County
1995-2001	Senior Programmer/Analyst, General Sciences Corporation
1992-1995	Project Scientist, Institute for Space & Terrestrial Science
1990-1992	Research Associate, NAS-NRC at NASA GSFC
1988-1990	Graduate Research Assistant, New Mexico State University
1985-1988	Supervisor, Lockheed Eng. & Mgmt. Services Company
1983-1985	Engineer, Nicolet Instrument Company, Madison, WI
1981-1983	Engineer & Supervisor, Lockheed Eng. & Mgmt. Services Co.
1979-1980	Graduate Research Assistant, New Mexico State University
1976-1979	Graduate & Faculty Research Assistant, Northern Illinois University
1972-1976	Electronics Technician, Fermi National Accelerator

### Recent Honors Received

NASA group achievement award for Aqua/AIRS	2004
NASA/GSFC group achievement award for Aqua/AIRS	2003

Letter of recognition for service on the NASA NPOESS Preparatory Project	2002
Letter of recognition for contribution to the NASA Carbon Cycle initiative	2002

### Research Support

- *NASA NRA-OO-OES-08, Awarded, 2002-2005, \$450,000*, to work on trace gas (CO<sub>2</sub>, CH<sub>4</sub>, CO) retrievals using measurements from the Atmospheric Infrared Sounder (AIRS), launched May 2002 on the EOS-AQUA platform.
- *NASA NRA-03-OES-02, Awarded, 2004-2006, \$485,000* to work on production of AIRS trace gas products.
- *NASA NRA-03-EOS-02, Awarded, 2004-2006, \$450,000* to work on AIRS cloud clearing risk reduction activities in the event Aqua/AMSU fails.
- *NOAA OAR, Awarded, 2004, \$350,000* to work on hyperspectral sounding of atmospheric carbon

### Recent Conference Publications:
